

Boomerang Is Cementing Itself As A Landmark Within Hong Kong's Nightlife

A global pandemic hasn't been able to keep this club down.
Enduring since 2020, Boomerang is establishing itself as
a true gem within Hong Kong's nightlife.

BOOMERANG

The Illusionist

The buzzing night club opened its doors back in Halloween 2020 before having to temporarily shut down amidst the height of the pandemic. After it opened its doors again in June of 2021, word spread like wildfire throughout Hong Kong's nightlife scene, earning the club raving reviews and making it the epicentre of all of Hong Kong's hype. Though Boomerang was forced to shut down once again in January of 2022, it just officially returned on May 19th, and is gearing up to take over Hong Kong once again.

Boasting peak exclusiveness, Boomerang remains packed every weekend, with long queues and endless demand, as it sets the stage for even bigger and better things to come for the latter half of 2022. Be prepared for exclusive creative events, festivals like never before experienced and pre-parties with acts sourced from around the globe, ranging from household names to underground trend-setters. With exciting plans on the horizon and each week bringing something new, Boomerang is poised to become the next key spot for tourists to visit in Hong Kong, as well as for locals to enjoy.

Boomerang has additionally joined forces with Remembaasia - one of Asia's most renowned artist managements and agencies, making waves within the industry through their inspired partnerships. Resident DJs at Boomerang include an impressive lineup of iLtik, Yaman and Krayon, all pioneering artists within their own rights, having performed at the likes of Creamfields, Looptopia and WorldClubDome while each crafting their own unique style of performance and production.

Through hosting world class festivals and pre-parties, booking globally renowned acts and serving as a creative hub for music and culture, Boomerang gears up to make large noise throughout the nightlife scene locally and beyond, with a vision to establish the club as a 'landmark' within the nightlife industry.

Having launched only last year, the buzzing Hong Kong nightclub is already seeing massive worldwide acclaim. Other than receiving praise from prestigious media outlets such as EDM.com and YourEDM, Boomerang was able to land on DJ Mag's colossal Top 100 Clubs list in 2021 while being open for just 4 months. It's safe to expect a higher ranking for Boomerang this year, with its team having already set their goals to the very top. There's no telling how many new heights Boomerang will reach, but one thing is for certain: sky is the limit.
